

COMET VALE,

April 13 1914

Dear Miss Parlow

I now take the liberty to pen these few lines to you. I am not a musician of any kind, but I am a great lover of music, so I bought an Edison Phonograph, to play for me, and 40 records. I am a great lover of Violin music more especially than any other instrument. among my collection are two gems by you, that Beautiful "Nocturne" has charmed me so that I have longed to see a Photo of you, for you must be as sweet as the Instrument you play, so I have now taken the liberty to write and ask you for one, you would feel flattered if you heard all the praise bestowed on you, I am certain you could not get more attention if you were playing in Reality, than your records get when being played on the Edison Phonograph. so kindly send me one of your Photos, and make a lot more Records so as we can hear plenty of you. Your Photo, will take pride of place in our camp as your Records do. Hoping I have not trespassed on your kindness I will always remain one of your many

Admirers

I Remain

Yours Sincerely

James King
